

**ROMBOLO
TUSCAN MOUNTAIN ENCLAVE**

Rombolo, nature retreat.

Rombolo is an artist's retreat, a ten minutes stroll through olive groves from Casoli piazza. Here one can truly escape the noise and the filth of big city living. We have our own natural spring, and the water, according to Casoli legend, has magical properties. Enjoy rustic surroundings with modern conveniences: modern bathroom, kitchen, satellite, internet... The spectacular panorama views the Camaiore valley, the Lake of Puccini, the Mediterranean Sea, and the Island of Corsica.

The property has a fruit orchard, vegetable garden, several private terraces, pizza oven, goldfish pond, and a frog fountain. The house available has 2 master bedrooms, 1 single bedroom, baby bed upon request, kitchen, living/dining room, bathroom, pergola/terrace, panorama terrace and oversize garden barbecue.

Guided hiking tours are available, with 500 different itineraries of the southern Apuane Alps, ideal for hikers and climbers, or for those who just like an easy mountain walk. A gorgeous running mountain stream with dipping pools and waterfalls is a half hour walk from Rombolo. From here Versilia beaches are just 1/2 hour, Florence 1Hr, Pisa International Airport in only 45 minutes, Lucca 35 minutes, Viareggio 25 minutes. This allows you to combine a "nature" holiday with the well known cultural splendor of Tuscany. Liguria and Cinque Terre, the Versilia nightlife, the shopping in Forte dei Marmi (just 20 min drive), and the art workshops and galleries of Pietrasanta (15 min drive) are all interesting day trip from Rombolo.
